"DOUBLE-NINE"

MODELS W-100, W-101 BLUED AND DELUXE NICKEL

HOW TO ORDER REPAIR PARTS

The following information must be furnished when ordering replacement parts:

1. **Model Name and Series Number (W-100, W-101)**
2. **Serial Number**
3. **Number and Name of Parts**
4. **Color**

MINIMUM ORDER $1.00

A minimum charge of $1.00 is made on all orders where the normal cost would be less than $1.00. Please note also the following paragraph. Additional parts will be added to meet the minimum charge.

PAYMENT

All parts shipments will be made by Parcel Post C.O.D. unless advance remittance is made. PLEASE DO NOT SEND CASH OR STAMPS. Checks, Money Orders, or Drafts are acceptable and will save you C.O.D. charges.

MODEL W-100 — W-101

Part Number	Part Name	Price Each
	Parts Marked With an Asterisk (*) Must Be Fitted at the Factory	
*7360	Barrel (5½") Blue. (Without Sight)	$ 8.00
*7460	Barrel (5½") DeLuxe Nickel, (Without Sight)	9.00
*7393	Barrel & Front Sight Assembly, Blue (Includes Barrel #7360, Front Sight #7342)	8.50

7457	Crane Assembly, DeLuxe Nickel (Includes Crane Link #7405, Crane Link Bearing #7107)	3.85
*7108	Cylinder, (Not Sold Separately. See Cylinder Assembly #7156)	
*7217	Cylinder Assembly, Blue (Includes Ejector Assembly #7161, consisting of Ejector #7116, Ejector Alignment Dowel #7117, Ejector Rod #7319 W-100 #7331-W-101, Crane Link #7305)	14.50
*7217	Cylinder Assembly, DeLuxe Nickel (Includes Ejector Assembly #7161, consisting of Ejector #7116, Ejector Alignment Dowel #7117, Ejector Rod #7419 W-100 #7431 W-101, Crane Link #7405)	16.50
7111	Cylinder Lock Plunger, Blue, DeLuxe Nickel	.65
7112	Cylinder Lock Plunger Pin, Blue, DeLuxe Nickel	.25
7113	Cylinder Lock Plunger Spring, Blue, DeLuxe Nickel	.25
7162	Cylinder Stop Assembly, Blue, DeLuxe Nickel (Includes Cylinder Stop #7114, Cylinder Stop Cross Pin #7115)	1.85

FACTORY SERVICE

If parts are to be fitted at the factory, send revolver marked for the attention of our SERVICE DEPARTMENT, furnishing complete and specific repair instructions. A cost estimate of the parts and labor charges will be immediately sent for your approval before work is started.

Unless a flat rate charge is specified, a MINIMUM of $6.50 will be charged on servicing revolver at the factory.

REVOLVER SHIPPING INSTRUCTIONS

BONAFIDE DEALERS IN FIREARMS are permitted by postal regulations to send revolvers to the factory by Parcel Post. INDIVIDUALS are not permitted to mail firearms and we recommend shipment by railway express.

All shipments to factory must be prepaid.

7379	Trigger Guard Assembly Pin, Blue	.25
7479	Trigger Guard Assembly Pin, DeLuxe Nickel	.25
7130	Trigger Spring Contact Pin	.25

INSTRUCTIONS FOR OPERATION AND CARE OF YOUR "DOUBLE-NINE" REVOLVER

LOADING AND FIRING:

1. Be sure that hammer is forward.

2. Hold Revolver in right hand with index finger of left hand against front of ejector latch housing. With left thumb move ejector latch to extreme forward position and, at the same time, swing out cylinder to left by pressing right index finger against it (See Figure 1). *Be sure to release ejector latch.*

3. Insert one .22 caliber short, long or long rifle cartridge in each of the nine chambers of the cylinder.

4. Return cylinder to frame by pressing thumb against cylinder. Do not push ejector latch forward when closing cylinder. The revolver is now ready to fire.

5. Revolver may be fired double action merely by squeezing trigger for each shot.

6. Target shooting, or other shooting demanding a maximum of accuracy, is usually done single action. For single-action shooting, pull back hammer to cocked position for each shot.

7. To unload revolver or remove fired cartridge cases, move ejector latch to extreme forward position and at the same time, swing out cylinder to left by pressing right index finger against it (See Figure 1), and push ejector rod to the rear (See Figure

8. Pull ejector rod forward before reloading or attempting to close cylinder.

9. Because cylinder chambers are counterbored, revolver may be "dry-fired" without injury to cylinder.

Double-Nine revolvers are sighted in at a range of 50 feet. If lateral adjustment is desired because of individual preference in sighting or holding, tap the rear sight gently, using a brass or plastic hammer. Move the rear sight in the direction you want the point of impact to move.

Correct Sighting

CARE AND CLEANING DOUBLE NINE

1. If, after extensive shooting, cleaning becomes necessary, the use of kerosene or any other good quality cleaning solution is recommended.

2. In cleaning the face of the cylinder or muzzle, an old toothbrush or similar brush should be used. *Unless* mud or foreign matter enters the bore, it should be cleaned very sparingly. If cleaning becomes necessary, a stiff bristle brush or copper wire brush for .22 *caliber guns* should be used. After brushing, the bore should be swabbed with flannel patches attached to a .22 *caliber* cleaning rod (patches should be moistened with a good quality gun oil). The swabbing of the bore should be continued until the patches come out clean. IT IS STRONGLY EMPHASIZED THAT THE BORE RARELY REQUIRES CLEANING EXCEPT FOR THE PRESENCE OF MUD OR FOREIGN MATTER.

3. In cleaning the cylinders of the revolver, the same procedure as used in the cleaning of the bore should be employed.

4. The entire gun should be wiped dry of kerosene or cleaning solution with a clean absorbent cloth and then the surfaces should be wiped with a lightly oiled patch.

5. For best results in rust prevention only gun oils containing silicon should be used.

6. A few drops of light-bodied oil should be applied to the action internally near the pivot point of the hammer. Retract the hammer first — then work the trigger double action a few times to distribute the oil. The same procedure applies to the cylinder crane link and the ejector latch slot in the housing affixed to the barrel.

7. Avoid using heavy-bodied oils. No animal or vegetable oils should ever be used in guns.

8. If the gun is used in climates where extreme cold prevails, powdered graphite should be substituted for oil in lubricating the internal mechanism. In moist climates the gun should be cleaned more frequently and preferably stored in a container treated with silicones to prevent rust.

DVICE. WE MAINTAIN A SERVICE DEPARTMENT WHICH WILL PROMPTLY GIVE YOU ADVICE AND SERVICE.

Hi-Standard .22 Caliber Autoloading Pistols

ALL-STEEL FIELD MODELS

Sport-King: Favorite .22 long rifle autoloader boasts remarkable engineering advances and wonder metals for top performance in the field. Ideal handgun for hunters, trappers, campers, fishermen, plinkers, target shooters.

Flite-King: Same outstanding features as Sport-King, but fires thrifty, quiet .22 shorts.

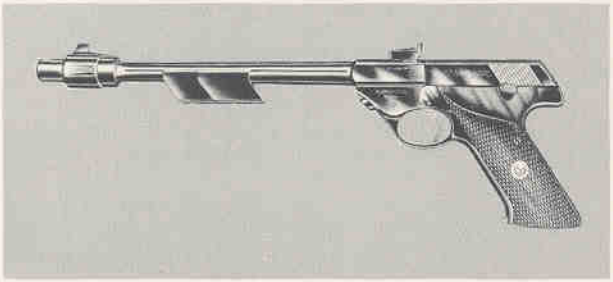
Dura-Matic: The perfect extra gun at a low price. Fires .22 long rifle ammunition with excellent accuracy. Double safety has a visible indicator to show when gun is ready to fire, plus a combination slide lock for positive cross-bolt safety. This versatile 10-shot autoloader fits the need of many shooters who can take pride in its sleek, modern lines.

LIGHTWEIGHT FIELD MODELS

Sport-King Lightweight: High tensile metals used in missiles are crafted into forged-alloy frames for these amazing handguns. Light in weight for easy carrying, you get tremendous durability for a lifetime of shooting fun. Sport-King Lightweight is a ten-shot .22 long rifle autoloader available in blued or Deluxe Nickel finish.

Flite-King Lightweight: Shoots thrifty *.22 short ammunition* indoors or out with quiet report and target accuracy — otherwise identical to Sport-King Lightweight. Light as a feather but rugged as a rock, it's perfect to pack along on your hunting or fishing trips. For your basement range, the Flite-King offers fun for your family, too!

SUPER-ACCURATE TARGET MODELS



Supermatic Trophy: A possession of pride worthy of the world's greatest champions. Superb hand-finishing inside and out for unexcelled beauty and precision performance. Ten-shot .22 L.R. autoloader has gold trigger and lettering, walnut grips.

Supermatic Citation: All the features of Trophy with Citation-grade finish, laminated grips.

Olympic: .22 short version of this superb target-grade handgun.

Supermatic Tournament: Top value in a medium-priced target pistol. Full measure of Hi-Standard quality with all but a few of the custom extras found in the Trophy. Choice of 4½" or 6¾" heavy, tapered, interchangeable barrels. Double-action safety. Sure-fire magazine. Diamond-checkered laminated grips.
